Testimonial: "Dear Zoë, I cannot believe the change in Mr Jones. I took him back to the vets, where he had an xray and ultra sound. His enlarged heart is back to its normal size!!!! The vet was amazed. Prior to your healing they said that Mr Jones would not survive the night. His heart rate was a staggering 350 per minute, and his blood pressure was barely readable, because it was so low. He is still on his drugs, but the vet wants to reduce them by half at the end of March. Mr Jones is back to his playful, lovable self. I do not know how we can ever thank you Zoë. You have a rare gift. We thank you from the bottom of our hearts. One of which, would not still be beating, without your healing." Suzie Whitehouse, UK
